HiAP Involvement in Policy and Plan Development in Canterbury

There are many methods to determine whether a policy or plan addresses the determinants of health. Community and Public Health and the Health in All Policies Team have been involved in plan development using various assessment methods since 2006.

<u>Read Tools to Support a Health in All Policies Approach</u> – our guide for more details on the various tools and how they can be used.

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
Our Space 2018- 2018 Greater Christchurch Settlement Pattern Update (Greater Christchurch Partnership)	2018	Draft Integrated Planning Guide (IPG)	The draft document outlines land use and development proposals to ensure there is sufficient development capacity for housing and business growth across Greater Christchurch to 2048. The HiAP team led a workshop with a wide range of stakeholders to assess the Our Space document against the draft of the updated Integrated Planning Guide. The workshop and report formed part of the Our Space consultation process.	Preliminary report on workshop feedback	

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
<u>Ōtākaro Avon River</u> <u>Corridor Recovery</u> (Regenerate Christchurch)	2017 – 2018	Integrated Assessment (IA)	The Regeneration Plan covers the entire residential red zone along the Ōtākaro/Avon River corridor. The IA process was used to determine assessment criteria, assess shortlisted options, and then evaluate the preliminary draft version of the plan. The HiAP team acted as advisors to the IA	Information on Regenerate IA process Final report not yet completed	
			workshops, as well as group facilitators, participants and support staff during the three IA workshops.		
Waimakariri District Council Red Zone Recovery Plan	2016	Integrated Assessment (IA)	This Recovery Plan sets out the long-term uses for the five regeneration areas in Kairaki, Pines Beach and Kaiapoi to facilitate recovery from the impacts of the Canterbury earthquakes and support regeneration. The HiAP team advised on and facilitated the Integrated Assessment of the Draft Recovery Plan to fulfil the impact assessment requirement of the planning	Integrated Assessment of the Waimakariri District Council Red Zone Recovery Plan	Evaluation of the Integrated Assessment of the Waimakariri District Council Red Zone Recovery Plan

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
Resilient Greater Christchurch Plan	2016	Integrated Recovery Planning Guide (IRPG)	The plan enables city and district leaders to work together to improve the future resilience of Greater Christchurch communities.		
		Te Pae Māhutonga	A HiAP team member led the Connected Communities development workstream and facilitated the working group to produce information for this section of the plan utilising Te Pae Māhutonga and IRPG.		
Greater Christchurch Urban Development Strategy Update	2016	Integrated Recovery Planning Guide (IRPG)	The strategy provides a broad settlement pattern for Greater Christchurch. The Strategy was originally produced in 2007, and was updated following the upheaval of the Canterbury earthquakes.		
			HiAP team member was seconded to work with the Greater Christchurch Partnership on the update for 6 months.		
			The IRPG was used as a framework to summarise consultation findings and to audit the draft plan.		

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
Christchurch City Council Replacement District Plan	2016	Consultation and submission	The Christchurch City Plan and the Banks Peninsula District Plan were reviewed under provisions of the Canterbury Earthquake (Christchurch Replacement District Plan) Order 2014.		
			The HiAP team were involved in development of the proposed plan with Christchurch City Council (CCC). Further involvement included submissions and participations in the hearings.		
Timaru District Council 2045	2015	Workshop	The Growth Management Strategy is a 30 year strategy to manage land use growth.		
Growth Management Strategy			A HiAP advisor and CPH team leader from South Canterbury ran a workshop with Timaru District Council (TDC) planners to review and elaborate on draft criteria for the strategy. This included joint presentation on HiAP and local authority planning frameworks.		
Canterbury Regional Air Plan (Environment Canterbury)	2014	Health Impact Assessment (HIA)	The Air Plan sets out how Environment Canterbury (ECan) is going to manage air pollution from home heating, industry and other sources like outdoor burning, dust and odour. The HiAP team led a HIA of the draft plan.	Health Impact Assessment of the Canterbury Regional Air Plan	

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
Lyttelton Port Recovery Plan (Environment Canterbury)	2014	Wellbeing Impact Assessment	The Plan provides a framework for the recovery and enhancement of the Port. The HiAP team led a wellbeing assessment as part of the streamlined plan development and helped develop criteria for the plan.	Lyttelton Port Recovery Plan – Information Package includes summaries of the results of the impact assessment in the appendices	Evaluation of Wellbeing Impact Assessment of the Lyttelton Port Recovery Plan
Ferry Road Master Plan	2013	Inquiry by Design Integrated Recovery Planning Guide (IRPG)	A strategic vision for Ferry Road to recover from earthquake impacts, to become a safe and pleasant movement corridor connecting city and sea, linking resilient and vibrant commercial centres. The HiAP team were active in the Inquiry by Design workshops that helped inform the plan development. The framework for the Plan follows five themes derived from the IRPG.	Appendix Six of the Ferry Road Master Plan summarises the issues identified in the consultation in the fives themes from the IRPG.	
Draft Land Use Recovery Plan (LURP)	2013	Integrated Assessment	Developed collaboratively by Environment Canterbury with its strategic partners, the LURP informs land use decision making to support housing and business, facilitate earthquake recovery, and create a vibrant, successful urban environment. The HiAP team led the Integrated Assessment.	Integrated Assessment for the Draft Land Use Recovery Plan	Evaluation of the Integrated Assessment for the Draft Land Use Recovery Plan

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
Recovery Strategy for Greater Christchurch	2012	Consultation	The Recovery Strategy was the key reference document to guide and coordinate the programmes of work under the CER Act.		
			Following consultation with HiAP team members, CERA included the IRPG as a tool in the impact assessment required in the preparation of Recovery Plans to integrate activities, connect the components of recovery, and implement the goals of this strategy.		
Christchurch City Council Central City Plan	2011	Integrated Assessment	A recovery plan for rebuilding Christchurch's Central City after the earthquakes of 2010 and 2011. The HiAP team contributed to an Integrated wellbeing and sustainability assessment led by Quigley and Watts. The project was jointly funded by the Canterbury DHB and CCC.	Integrated Wellbeing and Sustainability Assessment of the draft Central City Plan	

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
Sydenham Master Plan Lyttelton Master Plan	2011	Inquiry by Design Integrated Recovery Planning Guide (IRPG)	The master plans guide decision making and look to ensure the suburban centres are not only rebuilt, but becomes stronger and more resilient. The process for both master plans used the Inquiry by Design format. HiAP advisors contributed to the process, including using the IRPG to help develop it.		Evaluation of the use of the Integrated Recovery Planning Guide in the Inquiry by Design workshops as part of the Sydenham and Lyttelton Master Plans (2011)
Kaiapoi Town Plan 2011 (Waimakariri District Council)	2011	Integrated Recovery Planning Guide (IRPG)	Provides a framework to rebuild, redevelop and revitalise the Kaiapoi town centre. HiAP advisors facilitated a half day workshop to review draft plan using the IRPG.		
Christchurch Transport Strategic Plan 2012-2042	2010	Health Promotion and Sustainability through Environmental Design (HPSTED) Health Impact Assessment (HIA)	A 30-year vision for transport within the city. An early workshop helped shape the objectives of the plan by matching them to those in HPSTED. HiAP advisor led the HIA.	Health Impact Assessment of the Christchurch Transport Strategic Plan (see Appendix A)	

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
Canterbury Regional Land Transport Strategy 2012 – 2042	2010	Health Impact Assessment (HIA)	The strategy sets out the objectives, outcomes and targets towards achieving an accessible, affordable, integrated, safe, resilient and sustainable transport system for Canterbury. HiAP advisor led the HIA, including a literature review.	Health and Wellbeing Impact Assessment - Proposed Canterbury Regional Land Transport Strategy 2011 – 2041 Literature review on the wider health and wellbeing impacts of transport planning	Evaluation of the Health Impact Assessment of the Canterbury Regional Land Transport Strategy
Canterbury Regional Policy Statement 2013 (Environment Canterbury)	2010	Rapid health and wellbeing review	Provides an overview of the resource management issues in the Canterbury region. HiAP advisors led a rapid health and wellbeing review of the draft policy in 2010, including a two-day workshop.	Rapid health and wellbeing review of Environment Canterbury's Canterbury Regional Policy Statement	
Canterbury Water Management Strategy (Environment Canterbury)	2009 – 2012	Rapid review	The Canterbury Water Management Strategy (CWMS) provides a collaborative framework to help manage the multiple demands on the region's water. CPH staff were involved in implementation of strategy via several processes including a review of impact on health of water management decisions (2011) and helping develop a tool to help the CWMS Committees to interrogate the impacts of CWMS projects (2012).	Water Management and the Broader Determinants of Health (2011) Social and Economic Aspects of CWMS Implementation (2012)	

Plan	Year	Type of tool or assessment	Description	Report	Evaluation
Central Plains Water Scheme	2008	Health Impact Assessment (HIA)	The Central Plains Water Scheme (CPWS) is a project designed to provide irrigation for 60,000 hectares of land in Canterbury. CPH staff led a HIA to contribute to the consideration of the proposed scheme within the statutory resource consent process.	Health Impact Assessment of the Central Plains Water RMA Application	Evaluation of the Health Impact Assessment of the Central Plains Water RMA Application
Greater Christchurch Urban Development Strategy 2007	2006	Health Impact Assessment (HIA)	The strategy was published in 2007 and provides a broad settlement pattern for Greater Christchurch over 35 years. CPH staff led the HIA.	Health Impact Assessment of the Greater Christchurch Urban Development Strategy	Evaluation of the Health Impact Assessment of the Greater Christchurch Urban Development Strategy
